Matematica Senza Frontiere

Le courage des femmes...de Napoli

Laura Mancini Oliva

du discours du Président Giorgio Napolitano à l'ouverture des célébrations des 150 ans d'Unités d'Italie

“.. aujourd'hui, nous voulons faire revivre la mémoire et la conscience du Pays, les raisons de l'unité et l'indivisibilité comme une source de cohésion sociale, comme une base importante de tout progrès soit dans le Nord soit dans le Sud dans un contexte national de plus en plus difficile....

(omissis)...nous rappelons le rôle important joué par l'école pour l'unification de l'Italie”

Matematica Senza Frontiere

En esprit de continuité, je ajoute que la famille de MSF, représentée ici par les nombreuses équipes, dans ces dernières années a ainsi contribué à surmonter les frontières et unir les écoles des différentes nations.

*Je vous remercie d'avoir accepté notre invitation et, pour commencer, permettez moi:
W une Italie unie, W les écoles unies de tous nos pays, W MSF!!*
